

Serving you since 1948

Regional Sales Manager – Western Canada & USA

Power Survey International is a growing leader and has a great reputation in the Power Factor Correction Capacitor and Harmonic Filter market throughout the Americas. Power Survey manufactures Power Factor Correction capacitors, harmonic filter systems, customized switchgear and customized MCC from 208v up to 35kV. Also, through its sister company “Custom Metal”, it manufactures “non standard” metal enclosures.

Power Survey Internal is presently seeking to hire a Regional Sales Manager for the Western USA and Canada. The successful candidate preferably holds a bachelor degree in electrical engineering. He or she will be working from home (Canada or USA) but should be available to travel frequently throughout Western Canada and the Western United States for business purposes such as customer visits, tradeshow, etc. He or she must be highly motivated and will be responsible for strong sales growth in a selected area. The candidate has excellent communication skills and is at ease to do technical product presentations for our commercial and technical business partners and customers.

Requirements

A minimum of 5 years experience in:

- Electrical industrial sales (preferably in the capacitor, harmonic filter, switchgear or MCC market)
- Able to develop new and existing business partnerships with manufacturer representatives, distributors, resellers, engineering consultants, etc.

Please forward your resume to:

Power Survey International
7880 TransCanada Highway
Montréal, Québec
Canada
H4T 1A5
